Education and Qualifications

2021 - 2021	Studio School Liverpool Liverpool, England	Games Design, VFX and animation Triple Extended Diploma
2021 - 2025	University of Greater Manchester Bolton, England	Visual Effects and Animation BSc (Hons)

Work Experience

Mar-22	Industrial Light and Magic <i>Generalist Placement</i>	Digital Placement
	- After winning a prestigious Visual Effects Competition I was awarded with a placement at the company. - Shadowed industry leaders working on exciting and upcoming films. - Collaborated in high-pressure Scrum environments to meet technical milestones, gaining a deep understanding of the proprietary software pipelines used in VFX production.	
Jun-25 – Aug-25	InPost Logistics <i>Development and QA placement</i>	Liverpool, England
	- Joined an agile squad and took parts in all associated ceremonies. - Shadowed DevOps engineers, Developers and QA Analysts to gain insight into industry practices.	

Key Projects

Jan-24 – May 24	Studio Project	
	- Worked with a team to create a 3D scene with live action and comp. - Worked on hard surface modelling within autodesk maya. - Worked on texturing within Foundry Mari. - Worked on look development within SideFX Houdini.	
Jan25 – Mar-25	Houdini Procedural GenerationTool	Python
	- Developed a Python-based tool for SideFX Houdini using PySide2 and the Houdini API. - Implemented JSON-based state management to allow users to save, export, and share procedural presets. - Features a UI for users to edit parameters
